

A Vision

A Vision BECOMES REALITY 

Hanse 
PREMIUM

GLORIOUS SAILING, LUXURIOUS HORIZONS

Hanse Premium introduces a new class of Hanse yachts that combine racing-inspired design with luxurious living. The first in this line, due to be launched in 2012, is the magnificent Hanse 78 – capturing the thrill of the open sea in a yacht built for pure indulgence.

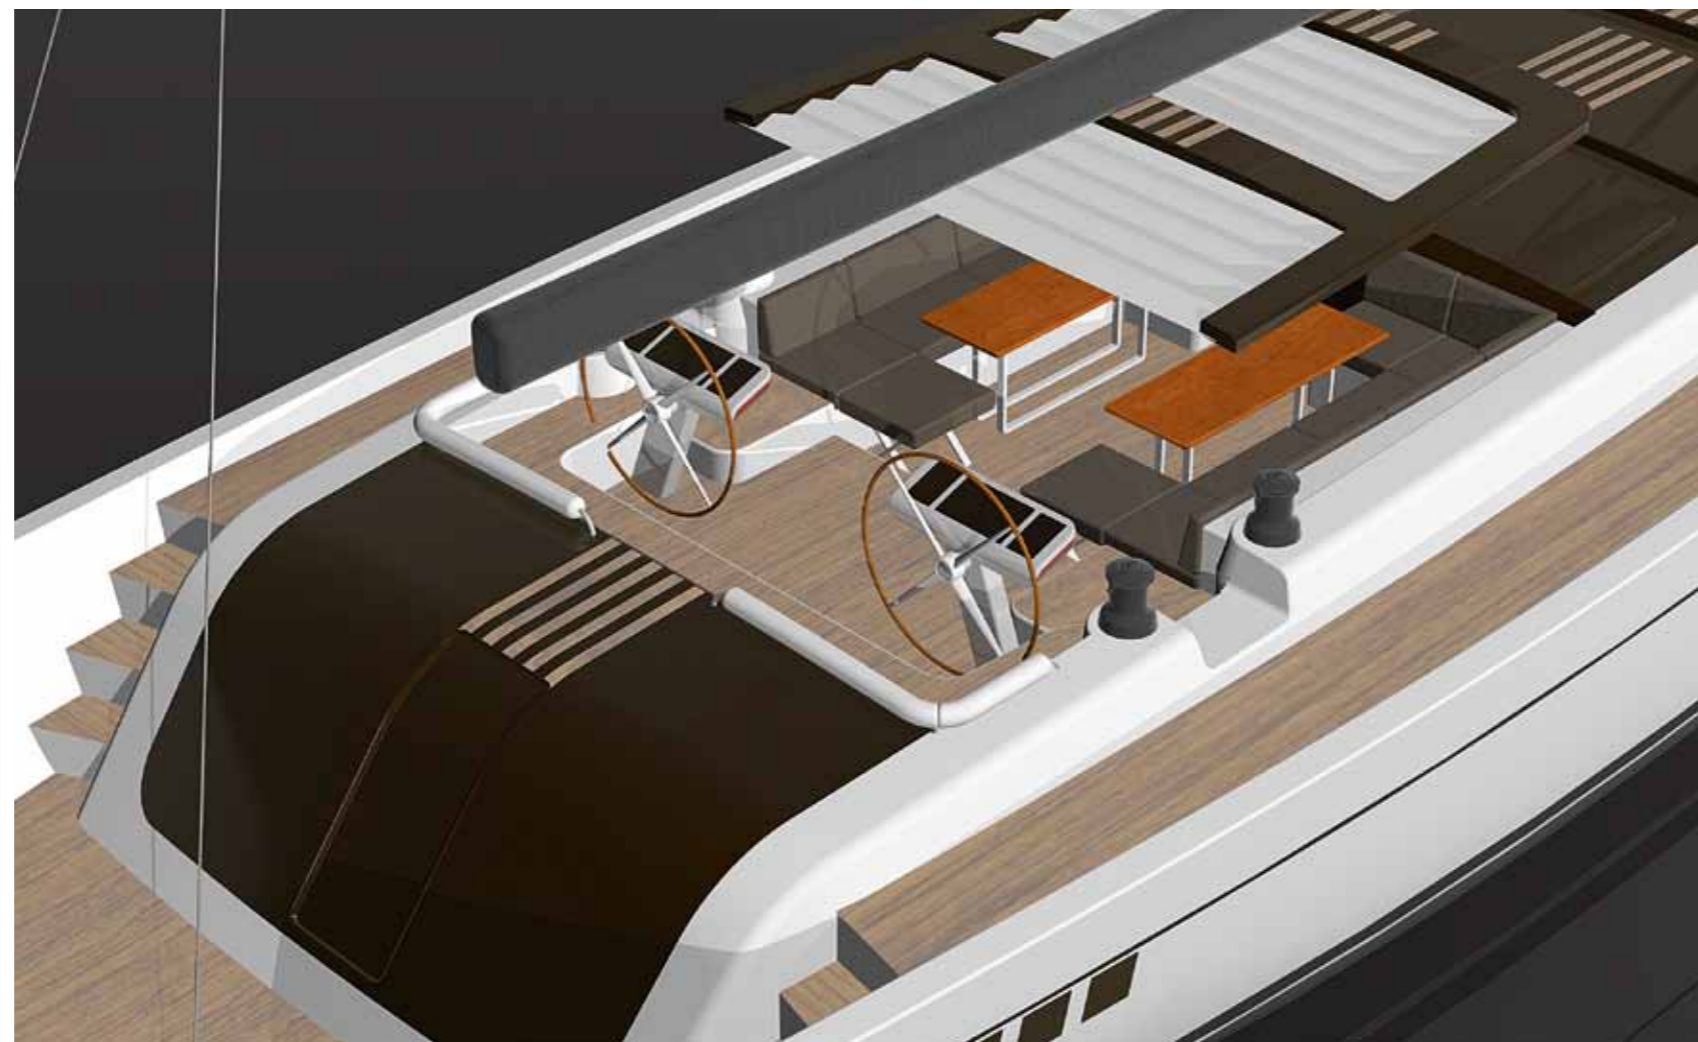

W

ith a hull design based on pure racing principles, the Hanse 78 can go as far as you take it. Whether surfing at top speeds or cruising comfortably on a sunset ocean, advanced handling features give you absolute control and ease. And with deck equipment tailored to your individual requirements, anything is possible.

ABSOLUTE CONTROL TAKE THE HELM

ADVANCED HANDLING TECHNOLOGY

Conquer the great blue yonder single-handed and self-reliant. The Hanse 78 is equipped with cutting-edge technology, engineered to achieve maximum control with minimal effort. Almost everything can be operated from the cockpit thanks to revolutionary sail-by-wire technology for advanced handling at the push of a button. So take the helm and sail solo – with total peace of mind.

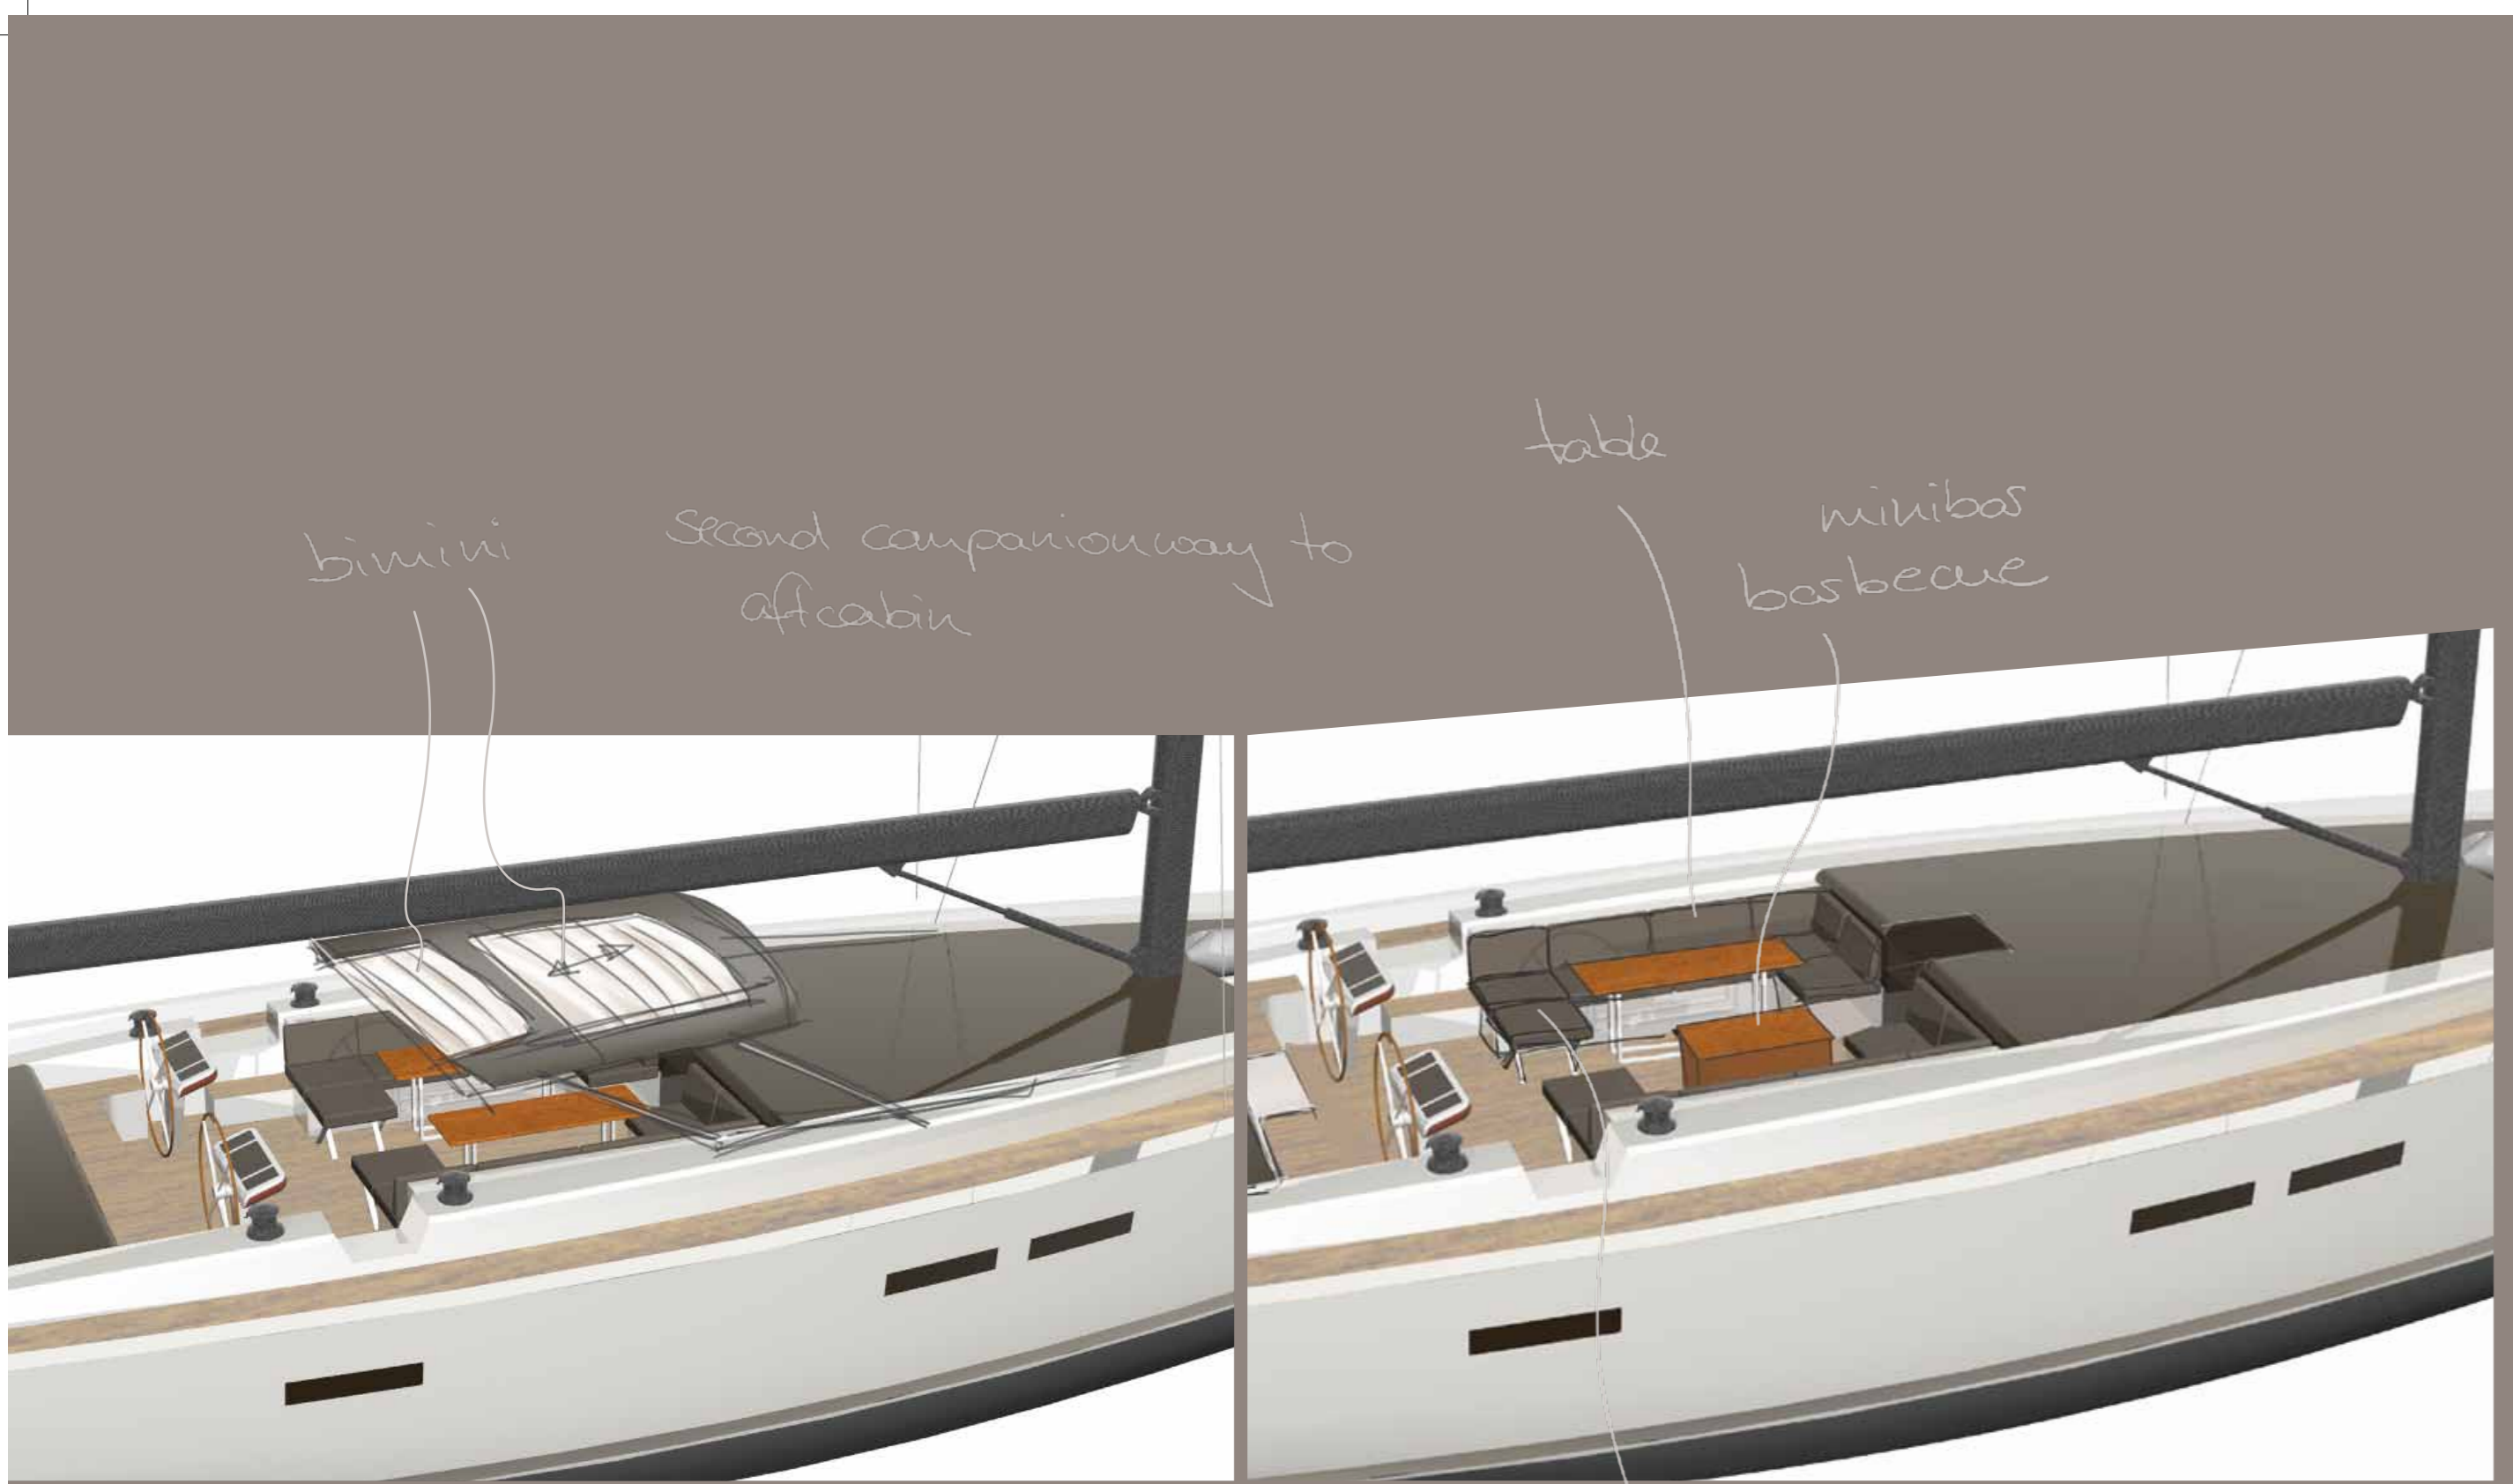

L

ess is more on the deck of a Hanse 78. Experience the indescribable luxury of smooth teak surfaces sweeping from bow to stern in clean lines that taper off into a spacious terrace open to sun and sea. Add to this minimalist concept your own individual touches and create a landscape of comfort.

SOCIAL HUB

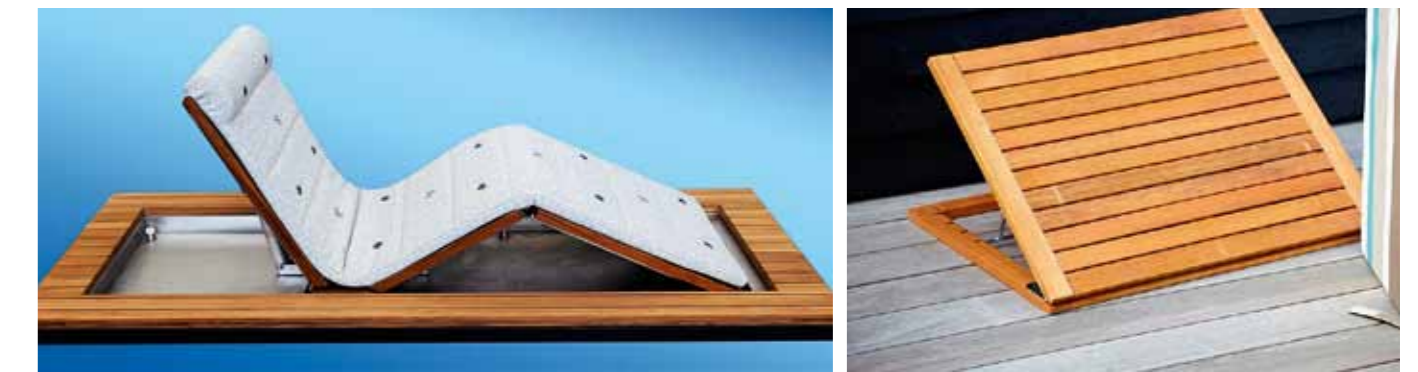

Enjoy a midday lunch al fresco beneath a broad, canvas sunshade. Stretch out on soft upholstery late into the evening under a breathtaking night sky. The spacious lounge area tucked cleverly into the middle of the deck can host a multitude of pleasant activities and features a number of options for customisation.

On sunny days, the irresistible lure of peaceful, sapphire waters will tempt guests to the open terrace astern for swimming and sunbathing. This generous "beach" acts as an extension of the owner's suite, which looks out through the arched skylight directly onto the sea.

SEA TERRACE

The smooth lines of the foredeck conceal a unique design innovation that can hold a dingy, a forward cockpit, a sunbathing area with windscreen, or even a pool – ensuring that every possible inch of deck space contributes to the premium experience of the Hanse 78.

VERSATILE FOREDECK

L

Leave the world of sea and sky and descend below deck where you'll find a comforting realm of light, open spaces that pamper with every possible luxury. The ultra-contemporary loft design encourages a feeling of airiness and freedom while surrounding you with style.

ROOM

SUPREME COMFORT

Consult with renowned interior designers to realise your vision of the ideal space – for living, for entertaining, for good company and for glorious solitude. Treat your guests to the height of style and luxury, while still reserving the most exceptional features for the owner's private suite.

URBAN CHIC ON THE WATER

Maintaining an extravagant lifestyle where space is at a premium requires innovative design ideas. The loft has enjoyed tremendous success among those who seek luxurious interiors in the world's most desirable metropolises. The Hanse 78 adapts this concept in its lower deck design, resulting in expansive spaces and long vistas that invite leisurely exploration.
